If your curtain includes only hemming tape, please follow the below instructions.

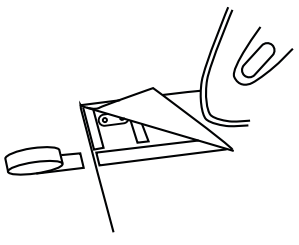

Hemming your curtain:
It is recommended that your curtain is hung for a few days to help with creases to drop out. Please iron your curtain on a suitable setting for the fabric. In coated fabric, the iron can only be used on the fabric side. Do not place iron on the white backing.

STEP 1
While your curtain is hanging mark where you want your curtain length to finish.
Iron a fold line at the finished length and then cut off excess allowing up to 10cm to be folded to make the hem. Once excess has been cut off, place the hemming tape between the layers of fabric ensuring the tape is covered.
Important: the tape melts becoming a glue and it is hot and very sticky. Leave to sit and cool. Your curtain is now complete to rehang.

If your curtain includes hemming tape and bottom weights, please follow the below instructions.

STEP 1
While your curtain is hanging mark where you want your curtain length to finish.
Iron a fold line at the finished length and then cut off excess allowing up to 10cm to be folded up to make the hem, ensuring you remove the bottom weights from the offcut.
Once excess has been cut off, place the hemming tape between the layers of fabric ensuring the tape is covered. Place the weights 5cms before the end of the curtain, adding hemming tape on either side and throughout the length of the curtain.
Iron on all tape avoiding the weights, they will now be sealed in the hem.
Important: the tape melts becoming a glue and it is hot and very sticky.
